	Claims	1	NO
Inventive step (IS)	Claims	2-6	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-6	YES

2. Citations and explanations

1 The present application does not comply with the requirements of PCT Article 33(2), because the subject matter of claim 1 is not novel.

1.1 This report makes reference to the following document (D) cited in the search report; the same numbering will be used throughout the procedure:

D1: EP-A-0 794 338 (TIMKEN CO) 10 September 1997

1.2 Document D1 discloses a device having all the features of claim 1 (cf. the whole document). In particular, D1 also shows the features of the characterizing portion of claim 1.

1.3 The subject matter of claim 1 is therefore not novel.

2 The features specified directly in dependent claim 2 are not indicated in their present wording in any of the search report citations. The features which are known in combination from D1 should be incorporated in the preamble of this new independent claim.

- 3 The description should be brought into line with the newly filed claims. Amendments, in particular to the introductory portion, including the presentation of the aim and the advantages of the invention, should not introduce matter which goes beyond the disclosure in the international application as filed.
- 4 Pursuant to PCT Rule 5.1(a)(i) to (iv), the description should cite document D1 and briefly outline the relevant prior art contained therein.
